GENUINE PARTS AND LUBRICANTS

Using genuine spare parts and lubricants to service your compressed air equipment can save you money.

Even the best compressed air equipment needs servicing regularly to keep it safe and efficient.

Non-genuine parts and lubricants could lead to expensive breakdowns

By using genuine spare parts you are using components manufactured to the highest specification. Using non-genuine parts could lead to an expensive breakdown at a later date.

As an authorised Hydrovane distributor we will ensure:

- ➔ A maintenance or service plan designed to meet your needs and compressor usage
- ➔ Only genuine parts and lubricants are used to maintain and repair your machines - as recommended by Hydrovane
- ➔ All servicing is carried out by registered and factory-trained Service Engineers
- ➔ A 24 hour service package is available
- ➔ We save you from expensive breakdowns.

We offer to visit your installation - FREE OF CHARGE and with NO OBLIGATION - to assess your compressed air needs and recommend a service schedule for your compressors that will keep them in optimum working condition and maximise uptime.
